HOW TO HAVE IT ALL!

**Lots of \$\$\$ Money \$\$\$, Wealth, Free Time,
Happiness, Fulfillment and Peace of Mind.**

How Do You Get To Your Dreamlife?

Dear Friend and Fellow Financial Prosperity Seeker:

How Do YOU get a Millionaire “Wired” Mindset so that you can get to the Dreamlife you want?

Just about EVERY adult human being on the planet with a pulse has been searching for the answers to that question.

My guess is that you ask that same question too.

Well I have some good news and some bad news.

The Bad News?

Here is a Fact and the Painful Truth.

98% of all people fail to ever achieve true financial prosperity, financial success, wealth, abundance and live their Dreamlife.

Perhaps (and more likely than not), you are one of the 98 percent.

Why is that?

Is it because of a lack of talent, passion, desire, motivation or access to the right resources?

No - it's not.

It's because you have...

NOT MASTERED THE RIGHT PSYCHOLOGY for achieving, growing and sustaining financial success, financial prosperity, wealth and abundance.

In short - You are NOT “Wired” For Wealth!

The Good News?

There is a proven solution for you that WILL get you the RESULTS you want and that WILL get you to that “Wired” Millionaire Mindset and the Dreamlife you desire and deserve.

How you ask?

Read on.

What You Don't Know Is Hurting You.

The RIGHT PSYCHOLOGY dominates everything when it comes to creating financial success, wealth, financial prosperity and abundance. You need to be "Wired" to get the competitive edge needed to achieve and sustain financial success and wealth.

But, let's face it my friend - the facts speak for themselves.

Most people, and that highly likely includes you, are failing miserably and suffering miserably in their quest for financial success. This is happening despite the fact that we are in an unprecedented time in history with incredible potential, opportunities and resources abounding all over the world, despite the financial crisis's, uncertainty and pain and suffering that so much of the world is enduring.

Well - if you have not been able to ride that wave of financial success at all, or if you still feel the results you are achieving are not as you deserve, desire or expect - then here's your chance to make it happen.

So what's the secret and solution to financial success?

It all starts with Psychology, Mindset and your Mental and Emotional "Brain State" and "Neural Wiring".

And all of that is derived from your internal programming and self talk - both conscious - and even more importantly - unconscious.

In anyone's' quest to achieve financial success and creating a dream life for you and your family, the most important key to it all is your brains neural wiring.

Your "Brain State" determines your destiny. It is essential that you master how to "Wire" your brain to help you propel yourself to financial success, wealth and your dreamlife.

You are clearly likely not an expert in this stuff - yet. If you were then you'd be wealthy already. So you will need to take the fundamental principles, strategies, facts and science at face value and on faith, just like you do for things like the many laws of physics or the law of gravity or the law of electricity. You know with absolute certainty that if you are standing on the earth's surface and you drop an object from your hands, it WILL absolutely fall to the ground. We all know this as the law of gravity - but do you really know how and why gravity

works the way it does? Not likely for most of you – but you indeed KNOW it does work. Likewise you know with absolute certainty that if you flip the switch on in your room, the light will go on (assuming the switch is working, the light bulb is working and the electricity is on and connected - and oh - that you paid your bill). We all know this as the law of electricity – but do you really know how and why electricity works the way it does? Again, not likely for most of you – but you indeed KNOW it does work.

And so it is with the principles and strategies you will learn.

You have to "flip your switch on" and get your brain "Wired". Do the work and you will have it proven to you in your own life. Act upon all of this learning material without hesitation or uncertainty. It is indeed a precise, exact art and science. Focus on keeping it simple, direct, plain and do not question your insights, discoveries or understandings as you gather them and learn from them. Just let it flow. It WILL all sort itself out for you.

If you need any help, please don't hesitate to seek it out or contact our offices or even me personally. Now's your chance - Don't blow it. SEIZE IT!

There are as many ways to achieve financial prosperity and create wealth and independence and freedom from it, as there are human beings on the planet. And make no mistake about it – financial prosperity and creating wealth for yourself from that success is your birthright.

Take it and use it well. For the good of yourself, your family, your friends, your career or business and your world.

And by the way – he who has the MOST Certainty, Focus and Belief wins.

Wishing you Love, Health, Wealth, Freedom, Peace of Mind and Your DREAM LIFE as you travel your own journey down the road to achieving financial prosperity, wealth, financial independence and peace of mind.

If you learn, use and master what we will show you then I am absolutely certain that...

The best is yet to come for you.

Go and MAKE IT HAPPEN!

CHAPTER 1

HOW DO YOU FINANCIALLY “GET THERE”?

How do you get financially from where you are to where you want to be?

Virtually everybody on this planet is asking or has asked themselves and others that question at some point during their life - or constantly in their life. I get asked it all the time - and make no mistake about it - I too did and still do indeed ask myself that question continuously.

There are age old questions that humans have been asking about money and financial prosperity for as long as there has been money around - and likely long before that as well. No matter what the language, values, beliefs or culture of humans, they are all asking the same fundamental questions:

- 1) How can I make money - or more money?
- 2) How can I achieve financial prosperity and financial freedom?
- 3) Why isn't it working for me?
- 4) How come I create what seems like great financial goals and plans but then produce the opposite results than what I intended?
- 5) How come each month there is too much month left at the end of the money?
- 6) How do I get my career or job or business that is stuck, unfulfilling and unrewarding to a point where it is unstuck, going great, growing great and fulfilling?
- 7) How can I get to my dream life with enough money and assets to live off of comfortably for my entire life - and for my families future?

- 8) How can I have financial peace of mind?
- 9) How can I achieve true happiness and fulfillment?
- 10) How can I have lots of free time and live life by my design?

They are all good questions - one would think.

But there is a cold, harsh reality out there in the real world. Firstly, the simple fact, truth and reality is that most of the humans living on this planet - by some estimates as much as 75 percent of our 7+ billion population - are living on (or should I more appropriately say - surviving on) the equivalent of US \$2 - or less - per day. That my friends is the staggering, frightening and worrying truth. Perhaps you are now - or were at one time - one of them.

Secondly, then there of course is the second largest group of people, perhaps you included, that are not poor or destitute or poverty stricken but on that never ending, going nowhere journey and treadmill of "just getting by" financially or "not getting ahead" financially or worse "falling behind" financially.

These simple facts - and the harsh reality of the kind of desperate, poverty stricken, anxious, uncertain, stressful and painful life it produces for most of mankind (and the negative outcomes and consequences it creates for the entire world) is one of the primary reasons why I created Wired for Wealth. To provide useful answers, tools, strategies and solutions for everyone - whether you are rich, poor, destitute or somewhere in between - that will help you to:

Transform and Master Your Mind

Transform and Master Your Finances

Transform and Master Your Life.

There is a famous quote from a very famous man whose name you likely know - and it goes like this:

"The same level of thinking that got you into the problem

won't be sufficient to get you out of it."

- Albert Einstein

You can best learn how to be more financially successful, by learning from people who have already done it - already have it - and/or also from those who have gone from financial success to failure, back to success and even then sometimes back to failure again and then back to success again.

To get from where you are financially to where you want to be you will need to do the following:

- **THINK differently.** How are you thinking about things financially right now? How are you thinking about the worrying, scary, frustrating, challenging financial issues, challenges and problems you face? And more important - How do you NEED to think differently about that?
- **BELIEVE differently.** How are you believing about things financially right now? How is what you believe hurting you financially? And more importantly - what beliefs do you need to change in order to get to your financial goals?
- **SEE things differently.** How are you looking at things financially right now? How is what you see hurting you right now financially? And more importantly - How do you need to see things differently?
- **TALK differently.** How are you talking about things financially right now - both to your external world and to yourself (self talk). How is what you say to the world and to yourself everyday hurting you financially? And more importantly - how do you need to talk differently to your external world and to yourself about that?
- **ACT differently.** How are you acting and behaving about things financially right now? How is what you do everyday hurting you financially? And more importantly - how do you need to act differently everyday in order to get you to your financial goals? You may very well find that if what you are doing isn't working or is producing only limited results it is likely that what you need to do is to try the exact opposite!
- **BE different.** How are you "being" right now with respect to your most important financial goals? How is what you are "being" everyday hurting you financially? And more importantly - how do you need to "be" different in order to get you to your financial goals?

- **RELATE differently.** How are you relating and interacting with others and your world - and even yourself - when it comes to your finances? How is how you are or have been "relating" everyday hurting you financially? And more importantly - how is it that you need to relate differently than how you have been "relating" to get you to your financial goals. You may find that what you need to focus on is giving and relating yourself to OTHERS concerns verses focusing on your OWN concerns including with close people in your life such as your spouse, partner, kids, parents, customers, colleagues etc.

When it comes to achieving financial mastery as the old saying goes:

There's no easy way out.

The easy way out, leads back "in."

So on this journey we are going to introduce you to some of the most powerful, cutting edge, principle-centered ideas, strategies, tools, techniques, reference frames, fresh and new distinctions and expert advice we know - for shifting your perspective, for powerfully altering your current way of thinking, talking, acting, believing, relating and creating empowering attitudes and results for your finances.

It involves calling you out and challenging you and asking you questions (in ways you likely never experienced before) in a journey - a conversation - and finding the places where, financially speaking, you are or have been or were looking at and living things "out of whack" and "hay-whyred", as I like to say it, or where your thinking, beliefs and actions is likely to get you (or has already gotten you) into financial trouble - or has restricted, limited, negatively impacted or derailed your financial performance and success.

There's a better world financially waiting for you out there - and it is my true, firm belief that the brain training strategies we will show you will help you achieve it.

So let's get on with it - shall we?

CHAPTER 2

THE ULTIMATE SECRETS TO FINANCIAL PROSPERITY.

IT'S ALL ABOUT YOUR PSYCHOLOGY.

Why You Need To Get “Wired” For Wealth.

The RIGHT PSYCHOLOGY dominates everything when it comes to financial prosperity, abundance and wealth creation.

Without the right psychology you would not have the true desire and motivation, nor the right tools and strategies, to have financial prosperity, abundance and lasting, sustainable wealth - or for that matter be a truly successful investor.

Financial prosperity, abundance, wealth, money, assets, investment returns, profits, surplus, income and philanthropy are the by-product of the Right Psychology - which directly or indirectly influences your Physical Wealth, Physical Health, Mental Health and your Soul/Spirit - and your ability and desire to Grow, Contribute and Give Back.

What you don't know about how to create real, lasting, fulfilling financial prosperity, abundance, financial independence and ultimately your dream life is now and/or has been likely hurting you holding you back. I will show you how to Get there and Stay there - whether the world is in the best or worst of financial times - whether there is uncertainty or certainty - whether there is crises or not - and irregardless of your own personal past history, life circumstances and events.

The Ultimate Secrets To Financial Prosperity.

The Art & Science Of Financial Prosperity, Creating Wealth
and Living Your Dreamlife.

What's Driving Your Financial Destiny?

The right to have financial prosperity, financial freedom and to be wealthy is yours. YOU give it to yourself. No one else and nothing else does that for you or gives you the right. So let us get straight to the point here. It's all about YOUR psychology, first and foremost. The secret to it all is YOU.

The RIGHT to achieve financial prosperity, financial freedom and the right to be rich - verses the DESIRE to achieve financial prosperity, financial freedom and to create wealth - verses the unwavering WILL to achieve financial prosperity, financial freedom and to create wealth so you can live your Dreamlife is quite another story – again depending on YOU. In short it all boils down to YOU and IF it is a MUST for you. If it is a MUST for you, you will make it happen. That I am 100 percent certain of.

Ask anyone you meet or know the question:

“Would you like to have real, lasting financial prosperity, financial freedom, more money and live your life with peace of mind on your terms?

Virtually 99.9 percent will say “yes”.

But what does that really mean?

The definition of "financial prosperity", "financially successful", "financial freedom", having “more” money, being “rich” and living your "dreamlife" is different for everyone. For some a million dollars of their own currency is enough. For others, even a billion is not enough. And for yet others it is not measured at all in money, assets or from their personal net worth financial statements.

It is fair however to say that for most human beings living in modern society, where investing, money, finance and credit are important – more is better. It can give you (but of course as you know does not guarantee you) a better quality of life.

How you use it and how you approach it of course is the determining factor for your success.

So ask yourself the following questions now and answer them HONESTLY below:

1) Are you financially successful yet?

Answer: _____

2) Are you rich yet?

Answer: _____

More importantly, the real, deeper questions I ask of you are: Successful or Rich in what?

3) Are you successful or rich yet in **Assets and Money**?

Answer: _____

4) Are you successful or rich yet in **Love**?

Answer: _____

5) Are you successful or rich yet in **Health**?

Answer: _____

6) Are you successful or rich yet in **Freedom**?

Answer: _____

7) Are you successful or rich yet in **Family**?

Answer: _____

8) Are you successful or rich yet in **Friends**?

Answer: _____

9) Are you successful or rich yet in **Relationships**?

Answer: _____

10) Are you successful or rich yet in **Life Experiences**?

Answer: _____

11) Are you successful or rich yet in **Spirituality**?

Answer: _____

12) Are you successful or rich yet in **Sharing and Contributing**?

Answer: _____

13) Are you successful or rich yet in your **Career and Profession**?

Answer: _____

14) Are you either:

a) not,

b) perhaps/maybe,

c) likely or

d) absolutely

a bit concerned and/or ashamed and/or upset about your answers to the above questions.

Answer: _____

And last but not least a final question:

15) Are you either:

a) not,

b) perhaps/maybe,

c) likely or

d) absolutely

a bit concerned and/or ashamed and/or upset about even your aspirations to be financially successful and to be rich.

Answer: _____

If your answers to 14 and 15 are b, c or d – you need to do something right now my friend - you need to...

Get Over It - Right Now!

If you have ANY doubt, concern, upset or shame – it is HOLDING YOU BACK and you probably don't even know it.

There is nothing wrong with wanting to be financially successful or to be rich. In fact having the desire to be financially successful and to be rich is really about having the desire for you, your family, your friends, your colleagues and your world to have a richer, deeper, fuller and more abundant life.

There is absolutely nothing wrong with that. In fact, these are goals and desires that are admirable and worthy of great praise and applaud – not condemnation, shame, concern, or upset.

However, being financially successful or rich is about ALL of the below:

a) Your Finances - Physical Wealth Attainment:

- 1) Money
- 2) Assets
- 3) “Stuff”

b) Your Body – Physical Health Attainment:

- 1) Food, nutrition and nourishment
- 2) Comfortable, suitable clothing
- 3) Comfortable, suitable shelter/housing
- 4) A balance of work, rest, recreation and exercise

c) Your Mind – Mental Health Attainment:

- 1) Education – formal and informal
- 2) Books, seminars, audio resources and video resources
- 3) Music
- 4) Travel
- 5) Life Experiences
- 6) Intellectual stimulation
- 7) Observation
- 8) Art
- 9) Nature

10) Mentors

11) Peer Group, friends and family

d) Your **Spirit** – Your **Soul**:

1) Love

2) Contribution and Giving

3) Forgiving

4) Gratitude

5) Meditation

6) Religion

7) Prayer

Do not deprive one or more of the above for the attainment of the other. If you do you will be out of balance and thus ultimately not grateful or happy or fulfilled or successful. The only way to live life fully is if all of the above elements are lived fully and in balance. None of them can be fully lived, manifested and thrive if one or more of the others is deprived of its place in your world and of full life and vibrant expression.

So my point here is IF you want to be financially successful and to be truly rich, you will need to learn how to achieve **balance** and full **integration** of all the above.

IT'S ALL ABOUT YOUR PSYCHOLOGY.

FINANCIAL PROSPERITY - IT'S ALL IN YOUR BRAIN.

When it comes to financial prosperity, financial mastery and wealth mastery most people get it wrong right out of the gate - right at the very start - by assuming or believing that financial success and financial prosperity is mostly about having a high paying job/career, having a successful business of your own and/or knowing and understanding the investments, the markets, the trading techniques and the investment “fundamentals” as it is commonly referred to. I will tell you right here and right now - it is NOT. It is about predominantly 2 things:

- 1) The Psychology of YOU, meaning HOW you are “wired”.
- 2) The Psychology of OTHERS, meaning HOW they are “wired”.

Just like algebra, arithmetic, electricity and gravity, there are certain human behavior, formulas, laws and principles at work which govern the process of financial prosperity and creating wealth. Learn and use these laws and principles and you WILL have financial success and get wealthy (or wealthier). It is a scientific, mathematical as well as practical certainty.

The laws and science of creating financial success and creating wealth is the same for all, no matter who you are, where you are. So go with the flow – not against it.

To make it all work for you will have to learn how to **think** in a certain way and **do** things in a certain way – or else you will have LOTS of pain and unnecessary financial losses.

You will need to utilize:

- 1) **Modeling** – meaning identifying those persons, parties or entities who are achieving the success you desire and then study them, learn from them and find out from those who are successful what they do and how they do it. Then model it, replicate it and do the same. Success leaves clues my friends. Use it.

- 2) **Mentors** – meaning identifying and seeking out those persons, parties or entities who can give you, whether free or paid, any education, guidance, coaching and honest hands on, active critique of your facts, circumstances, efforts, work and results.
- 3) **Peer Group** – meaning identifying and seeking out those persons, parties or entities who share common goals and objectives with you. And even better yet, those who ALREADY have what you desire. You MUST spend your time and energy with the right people or you will be held back from your success.
- 4) **Master Mind Group** – meaning identifying and seeking out those persons, parties or entities who would actively like to meet and be in contact periodically or ad- hoc with you and others to share their expertise's, successes, feedback, recommendations and resources with you to help you and others achieve success.

You will need to understand also that the art and science of being financially successful is NOT about:

- your environment, where you live, where you were born, where you grew up;

or

- your talent and natural “abilities”;

or

- being “thrifty” or “Safe”;

or

- lack of capital;

or

- lack of education;

or

- lack of experience/expertise;

or

- lack of other resources;

or

- any other excuse or reason you have come up with.

None of that can be made to matter to you. These are just the circumstances, the perceived or actual facts as a person sees them. It is what you will do with them and about them that will count, not whether they exist or are perceived as relevant or actually are relevant in your life (past, present or future), or not.

You will need the ability to think, understand and open your **mind** and your **heart** to what is out there and available to you. There will be no light to shine on you if you keep the doors to your mind, your heart and your soul shut.

You will need to learn how to identify what you are deeply passionate about. If you DO what you love, with passion and purpose, and then LOVE what you do...

The successes and riches will follow for you in whatever form or definition you desire.

You will need to recognize and get comfortable with the following fact:

Wherever You Are - There You Are!!!

What does that mean?

It means my friend, that whatever your current facts and circumstances are - whatever is your life - whatever is your current financial condition (whether rich, poor or somewhere in between) - wherever and whatever you are - right now - It is what it is. So START RIGHT THERE!

There is no perfect time or perfect place to start.

Don't wait for the right time or the right place - what is all that "right place" and "right time" nonsense all about anyway? It's a story and an excuse that is HOLDING YOU BACK and ROBBING YOU AND YOUR LOVED ONES FROM THE LIFE AND SUCCESS YOU DREAM OF AND DESERVE.

The time is RIGHT NOW.

The place is RIGHT THERE where you are standing at this minute.

Start with whatever you have, large or small or maybe nothing.

Get on with it.

If you are looking for the right place and the right time to start I have the perfect answer for you. It is as follows.

Wherever you are right now, go and find yourself a rock. Pick it up and then throw it.

Wherever the rock lands - go over to it - pick it up – and...

START RIGHT THERE!

Get my point?

WHAT DO YOU SEE? WHAT DO YOU FEEL?

WHAT DO YOU BELIEVE?

It's time for another question for you. You're going to get many of them so keep your pen, and your journal out.

1) What do you see and feel when you look out at the world of money, wealth and finance? Do you see endless opportunity or a world, markets and financial systems monopolized and controlled by just a few?

A: _____

2) Do you see, feel and believe that there is “more than enough” for you? That the supply and the raw materials you need are endless?

A: _____

I am here to tell you, if you do not already SEE IT, FEEL IT and BELIEVE IT - that indeed the supply and the raw materials you need for financial success and in creating wealth is ENDLESS. And it is likely NOT what you think it is.

So now another question for you:

1) What do you think the supply and endless raw materials are for creating financial success and for creating wealth?

A: _____

Ready for the answer?

It is BRAIN WAVES and BRAIN CHEMISTRY and It is THOUGHT and It is the CREATIVE ENERGY of the human mind.

It is not the physical stuff – not the paper money – not the coins – not the credit system, nor the financial system – and not the gold, silver, oil or other commodities – not the stocks nor the bonds - not the real estate - these are only the tools, forms and the mediums you use and access.

WHAT you think. HOW you think.

And then how you ACT based on what you think and how you think, determines your success or failure – your financial future - not the physical stuff of money and wealth.

So now you are ready to really begin the journey of discovery to learn the guiding secrets and principles for becoming financially successful and creating wealth. This could be the most exciting moment of your life – or at least your day. Are you ready? Are you excited? Let's go!

SOME CLOSING THOUGHTS

BUILDING BRIDGES TO CREATE and SHARE SUCCESS,

FINANCIAL PROSPERITY and A DREAMLIFE.

Build a Bridge You ask?

Yes in fact - build MANY bridges!

We live in a world with so much danger, pitfalls, uncertainty, selfishness, greed and evil in it. People need help - a safe passage and route - more than ever in human history.

You can make a difference by helping create and build a SAFE PATH for others to travel on as they go on their journey so they can avoid as much as possible the pain, suffering, loss and uncertainty that you or others may have had on your journey. This will protect and accelerate the journey to success for:

- 1) You
- 2) Your Family
- 3) Your Friends
- 4) Your Colleagues
- 5) Others
- 6) The World

You just never know whose life you may change or what a great difference you could make in the world.

I mentioned to you earlier that I am a "Bridge Builder" myself and I promised I would share with you the poem "Bridge Builder".

So here it is below.

I hope you enjoy it, that it inspires you and moves you and that perhaps you too will become a "Bridge Builder" yourself, if you are not already.

The poem says it all:

The Bridge Builder

By Will Allen Dromgoole: 1860 - 1934

An old man going a lone highway,
Came, at the evening cold and gray,
To a chasm vast and deep and wide.
Through which was flowing a sullen tide

The old man crossed in the twilight dim,
The sullen stream had no fear for him;
But he turned when safe on the other side
And built a bridge to span the tide.

"Old man," said a fellow pilgrim near,
"You are wasting your strength with building here;
Your journey will end with the ending day,
You never again will pass this way;
You've crossed the chasm, deep and wide,
Why build this bridge at evening tide?"

The builder lifted his old gray head;
"Good friend, in the path I have come," he said,
"There followed after me today
A youth whose feet must pass this way.

This chasm that has been as naught to me
To that fair-haired youth may a pitfall be;
He, too, must cross in the twilight dim;

Good friend...

I am building this bridge **for him!**"

YOU BUILDING?"**
